3.5 T Forklift

AMF35

The Revaro Agrimech AMF35 is engineered to meet the diverse demands of contemporary farming operations. With a robust load capacity of 3,500 kg and a lift height of 3,000 mm, this all-terrain forklift adeptly manages heavy lifting tasks across various agricultural settings. Its powerful engine and advanced hydraulic system ensure smooth and efficient performance, enhancing productivity on the farm.?Revaro

Designed with a compact structure and tight turning radius, the AMF35 offers exceptional maneuverability, allowing operators to navigate confined spaces with ease. The forklift\\\\\\\'s durable construction is built to withstand the rigors of daily agricultural use, ensuring longevity and reliability.?

Key Features:

- High Load Capacity: Handles up to 3,500 kg, suitable for heavy-duty agricultural tasks.
- Optimal Lift Height: Reaches up to 3,000 mm, facilitating efficient stacking and loading.
- ?

  Advanced Hydraulics: Provides smooth and responsive operation for precise handling.?
- Compact Design: Enables easy maneuvering in tight farm environments.?
- Rugged Construction: Built to endure challenging agricultural conditions.?

Rely on the Revaro Agrimech AMF35 to enhance your farm\\\\\\\'s efficiency and tackle any material handling challenge with confidence.

Specs

General Specs	
Load Capacity	3500kg

Engine	Yunnei YN27
Operating Weight	4055kg
Tyres	20.5/70-16
Min. Turning radius	3920mm
Min Ground Clearance	240mm
Lift height	3000mm
Full-load maximum gradeability	25°
Fork size	1220mm
Fork adjust width	240-1100
Driving type	4WD
Load center distance	610mm
Front tilt angle	6° - 12°
Max speed without goods	28km/h
Engine Power	42kW
Gearbox	Small Hub Reduction
