

1600W Portable Light Tower

RLT1600LED

Built to dominate the dark, the RLT1600LED is a powerhouse of illumination and reliability. Driven by a 4.5KW KOOP Diesel Generator, it fuels four high-intensity 400W LED lamps that cut through the night with brilliant clarity. Its 7-section elevating mast extends up to 7 meters, ensuring wide-area coverage for worksites, events, or emergency operations. With a rugged 48L fuel tank, dual mobility options (walk-behind & trailer type), and a solid 420kg build, the RLT1600LED is engineered for endurance and versatility. Wherever the job takes you, this beast keeps your site powered, visible, and safe.
