700kg Ride-on Road Roller

T-REX307

The Revaro T-REX307 is a compact 700kg double drum road roller, designed for efficiency in confined areas and smaller compaction projects. With its hydraulic transmission and electromagnetic clutch vibration control, it delivers smooth, consistent performance on asphalt and granular materials.

Powered by a reliable Honda GX270 petrol engine, this machine combines portability with strength, making it ideal for municipal works, pathways, and small-scale construction sites.
