15 Ton Excavator

T-REX6150

The Revaro T-REX6150 is a powerful 15-ton hydraulic excavator engineered to deliver dependable performance across a wide range of earthmoving, construction, and infrastructure applications.At its core is a robust electronically controlled engine producing 110 kW of reliable power, paired with a
high-efficiency hydraulic system designed for smooth, precise, and
responsive operation in demanding working conditions.

Built for durability and long service life, the T-REX6150 features reinforced structural
components and heavy-duty construction to withstand challenging job site
environments. Equipped with a 0.6 m³ bucket and strong digging forces of
91 kN (bucket) and 55 kN (arm), it provides the versatility and performance
required for trenching, loading, and general excavation tasks. Operator
comfort is enhanced through a well-designed cabin offering excellent visibility,
reduced vibration, andintuitive controls, while thoughtfully positioned service
points allow for efficient daily inspections and simplified routine maintenance.
The Revaro T-REX6150 delivers the ideal balance of power, efficiency, and
reliability for contractors seeking a dependable mid-size excavation solution.

Specs

General Specs	
Operating Weight	15000kg
Bucket capacity	0.6m³
Engine make & model	Cummins QSB3.9
Power	97kW @ 2000rpm
Engine capacity	3.9L

Number of engine cylinders	4
Slew speed	11rpm
Gradeability	35°
Bucket excavation force	95kN
Arm digging force	55kN
Working pressure	32MPa
Overall size	7737 × 2500 × 2847mm
Minimum ground clearance	380mm
Max excavation height	8627mm
Max excavation depth	5343mm
Digging Radius	8198mm
Swing radius	2770mm
Max Dumping Height	6025mm
Max Vertical Digging Depth	4811mm
Cabin Height	2847mm
Track Distance	2000mm
Tail Swing Radius	2389mm
