99 Ton Excavator

T-REX6990

The Revaro T-RE6990 is a 98-ton ultra-heavy-duty crawler excavator designed for large-scale mining and high-production material handling. Powered by the robust Scania DC16 engine delivering 574 kW at 2000rpm, it provides exceptional digging force and hydraulic performance for demanding continuous operations.

With a bucket capacity of 6.5–8 m³ and outstanding breakout forces, it is built to handle extreme volumes efficiently.Its reinforced structure, wide undercarriage and high-capacity hydraulic system ensure maximum stability, traction and smooth operation in tough quarry and mining environments. The T-RE6990 delivers superior strength, durability and productivity where reliability and performance are critical.
