150mm Wood Chipper

RWC1515

The Revaro RWC150 Wood Chipper is a high-performance, heavy-duty machine designed for efficient processing of large branches, logs, and green waste in demanding environments. With a 150 mm chipping capacity, this unit is built for professional use across landscaping, agricultural operations, estates, and commercial property maintenance.

Powered by a robust engine platform and equipped with a heavy-duty drum cutting system, the RWC150 delivers smooth, consistent chipping performance. The wider and heavier cutting drum improves momentum and efficiency, allowing the machine to process material more effectively while reducing strain on the engine. Its dual V-belt drive system ensures reliable power transmission and protects critical components under load.

The machine features double-edge reversible blades, extending service life and reducing maintenance costs, while maintaining a clean and efficient cut. A large infeed hopper allows for easy feeding of bulky material, and the high discharge chute ensures effective output handling.

Designed for durability and mobility, the RWC150 includes a rugged frame, towable configuration, and stable wheelbase, making it suitable for on-site use across a variety of terrains. Optional features such as a tow bar and enhanced discharge control further increase versatility.

Built for serious chipping applications, the Revaro RWC150 delivers the power, durability, and performance required to handle demanding workloads with ease.

Specs

General Specs

Engine	Petrol engine
Power	15HP
Displacement	420cc
Certification	TUV CE
Chipping capacity	127mm
Cutting system	Drum cutting system
Blade quantity	2pcs
Blade type	Double edge reversible
Blade length	300mm
Cutting drum diameter	230mm
Wheel size	16×8.0-7
360° discharge	Optional
Clutch	Optional
Tow bar	Optional
Drive system	Dual V-belt drive
Packing size (L × W × H)	895 × 765 × 1210mm
Gross weight	205kg
Net weight	200kg
Container capacity	78pcs/40HQ
Engine	Petrol engine
Power	15HP
Displacement	420cc
Certification	TUV CE
Max branch diameter	152.4mm
Cutting system	Drum cutting system
Blade quantity	2pcs
Blade type	Double edge reversible
Blade length	300mm
